Automatic Truck Chassis Wash & Sanitizing System

ADVANTAGE

Can Wash and Decontaminate Multiple Vehicle Types, Provide Customized Washing for the Chassis of Vehicles

By Ways of High Pressure Cleaning, Foam Disinfection and Foggy Disinfection, Can Kill Pathogenic Microorganisms, Cut off the Path of Transmission of Pathogenic Microorganisms

With Professional Waterproof Treatment, Protection Level of Sensors and Motors Reaches more Than IP67

Data Sheet

Material	S.S.304
Motor Protection Class	IP67
Sensor Protection Class	IP67
Flow Rate	30-60L/min
Pressure	20MPa

Nozzle with Special Powerful Cleaning Design Makes Germs Nowhere to Hide

Cover the Surface of the Vehicle Chassis Including Tyre Interior with Almost No Dead Ends

Main Material Use S.S 304

Hot Water Cleaning for Further Decontamination
